Born in the North of China, I consider myself as a forthright and resolute person. Though I have already been in JI for more than two years, I still feel honor to be here to study with all my excellent classmates. We helped each other in solving assorted problems. We worked together to handle various projects. I believe it is the passion that we all hold that defines our life at JI. To some extent, JI is a new big family for me. I will be sure to try my best and work hard in order to make the family feel proud.</p> <p>Hobby: I am good at playing piano, and here's one of my video.
